Author: Stockdill, Scott

Updated Volume: 3.00 gallons

Notes:

Email from company contact.

"Following cleanup, it has been determined the amount released at EPND's Blaisdell Station on 11/25/13 was approximately 3 gallons, not the 15 gallons as was originally reported. Is there a process for updating the ND Environmental Incident report to reflect the accurate amount of product released?"

No more followup required.
